

Cleantech Scandinavia announces the Top 10 most promising cleantech companies in the Nordics!

Today we are proud to announce the Top 10 companies in this year's Nordic Cleantech Open, it has been an even closer race this year than usual and we congratulate all the companies that has made it one step further towards the winning spot. The companies in this year's Nordic Cleantech Open have been first time applicants to a higher degree than the previous 4 years and we are also excited to see that the Top 10 all represent very diverse types of technologies and services.

To meet all of the brilliant entrepreneurs make sure to join the upcoming flagship event, the Cleantech Capital Day 3-4 of April in Oslo <http://ccd.cleantechscandinavia.com> This event will host the finals of the competition as well as an array of interesting topic discussions and company presentations from over 40 companies in total.

Without further a due, here is this year's Top 10!
